Subject: 1098

Dear Sir/Madame of the Senate, please do not pass Mr Jones bill 1098. I was relieved when you passed the bill to stop taking our tax dollars from our kids to educate foreign kids. Our kids need all the help they can get. In a perfect world, going to school with foreign kids would seem like an enriching experience for all involved, but in reality, there isn't much of any interaction between the kids. Here in Oxford Michigan, we had a large population of Chinese kids come to our High School, and they completely kept to themselves, had very little interaction with other kids, didn't participate in activities outside school and basically did what they had to, to get into a good college. Nothing more. It has been a drain on our schools, not a benefit. Please don't allow this to pass!

Sincerely, Ginny Benson
